Project Name	FitBro
Meeting Name	Meeting Nov 10th, 2024
Meeting Facilitator	Yuval Glozman
Meeting Details	Nov 10th, 2024
Meeting Invitees	Aaron Borja, Zana Osman

Minutes:

Topic	Summary of Discussion/Decision
Continued Front End Development and EJS Implementation	- Discussed how to best implement the EJS views and also minor changes to front end of the application. A good chunk of the discussion was on whether we should include partials for code organization or if it's better to just keep it in the main EJS view
Model Implementation and Controller/Switch to MongoDB?	- Discussed on whether we should switch to MongoDB and if it's application would be better for our needs. Discussed current issues with the JSON read and write system. Overall favour was made to switch to MongoDB.
